DETAILED ACTION

This Application has been examined. The claims 1-6 are pending. The examination results are as following.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Regarding claim 1, the phrase "such as" renders the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).
4. In claim 1, line 4, should delete the "and so on". Appropriate correction is required.
5. In claim 1, line 5, the "2 independent sequential distribution devices" should change to --two independent sequential distribution devices--. Appropriate correction is required.
6. In claim 1, lines 6-7, the "authorisation" should change to-- authorization--. Appropriate correction is required.
7. In claim 1, line 7, the "synchornisation" should change to--synchronization--. Appropriate correction is required.
8. In claim 1, line 7, the "synchronising" should change to—synchronizing--. Appropriate correction is required.
